We value your referral

We are pleased you have chosen our practice to care for your dental needs and look forward to ensuring your dental health is sustained at an optimal level today and for the future.

We value you as a patient and would like to take this opportunity to inform you that we also offer incentives for patients who are able to share their experience with others which then results in a new patient visit to our practice. We welcome and appreciate new patients and it would give us great pleasure knowing that you believe in our service enough to recommend us to your family, friends and colleagues.

Our Patient Referral Program will reward you in the form of service vouchers. These vouchers can be utilised for all dental services offered by our practice. We recognise the importance of referrals and therefore offer this valuable incentive that can be used at your leisure.

Patient Referral Program

We welcome and appreciate your patient referrals to our practice.

When you refer a family member, a friend or colleague you will receive a service voucher which can be used for your next dental treatment.

We look forward to seeing you, your family and friends at our Dental Practice.
